

7 steps to clean and disinfect like a pro

1. Put on disposable gloves.

2. Clean surfaces with soap and water or a household cleaner, using paper towels or rags.

3. Next, completely wet cleaned surfaces with a disinfectant solution, spray, or wipes. Find a list of EPA-approved products at [epa.gov/listn](https://www.epa.gov/listn).

4. Leave wet for the time listed by the manufacturer on the label. Allow to air dry and evaporate.

5. When finished, wash rags in hot, soapy water or dispose of paper towels.

6. Remove and safely discard gloves; then wash your hands.

7. Keep supplies tightly closed and safely stored out of the reach of children.
