# Take charge of your health on the go with our digital resources

Living an active life shouldn't keep you from getting the care that you need. As a Kaiser Permanente member, you'll have access to convenient tools that will help you stay in control of your health, no matter where you are.

## Get virtual care with Kaiser Permanente

Virtual care allows you to see a Kaiser Permanente personal doctor, specialist, or nurse by video<sup>1</sup> or by phone. When you need medical attention, you can start your journey by using any of our virtual care options after registering and logging on to **kp.org** or downloading the Kaiser Permanente (KP) app:

- Connect with a physician by phone or video visit<sup>1</sup> 24/7 for non-emergency conditions when you need it—no appointment required.
- Complete an E-visit by answering a questionnaire to get advice/treatment options.
- Get email consultations with your primary care doctor.
- Call our 24/7 nurse advice line.
- Chat with Kaiser Permanente, including advice nurses, by using our new online chat service.

Are you ready for your video visit? Please visit **kp.org/videovisits** before your appointment to make sure your computer or mobile device is working correctly for the visit.

## Set up caregiver access on **kp.org**

Caregivers can have access to certain features of **kp.org** for their loved ones who are Kaiser Permanente members. Non-Kaiser Permanente members can be caregivers and have access to **kp.org** too, if they are at least 18 years old and have one of the following:

1. Permission from the Kaiser Permanente member
2. Legal rights to make decisions on the member's behalf
3. Legal rights to access their health care information

If you're a caregiver, go to **kp.org/register** to set up an account and follow the prompts for access.

## Get text reminders about your appointments

When life gets busy, it's easy to lose track of when it's time for care. Stay on top of your health by opting in to receive appointment reminders and other updates via text message<sup>2</sup> on your mobile device.

Enjoy these benefits:

- Receive appointment reminders for most of your or your loved ones' appointments (must have set up caregiver access on **kp.org**).
- Confirm or cancel appointments without having to call your doctor's office.
- Receive timely information about facility closures (such as for inclement weather).
- Get other updates related to your care.

---

<sup>1</sup>If you travel out of state, phone appointments and video visits may not be available due to state laws that may prevent doctors and health care providers from providing care across state lines. Laws differ by state.

<sup>2</sup>Text message reminders are currently available for all primary care appointments and most specialty departments.

Ensure you receive these convenient notifications by providing us with your most up-to-date mobile phone number on **kp.org** under the Profile & Preference section. You may also verify your mobile phone number:

- During your next visit to a Kaiser Permanente medical center, or
- When you call the Medical Advice and Appointment Center at **800-777-7904**

You can opt out at any time by calling **800-777-7904** or by replying to the most recent text appointment reminder with the word STOP.<sup>3</sup>
